PLAN TO PLANT NOW

Quality - Service - Price

Coniferous Evergreens

The greatest advantage of these Evergreens in landscaping the home grounds is that they retain their foliage the year around. By planting the proper variety in their proper places wonderful results can be obtained with but little expense. It is necessary, however, to plant Evergreens where they will get ample sunlight that they may show their best. If you are not familiar with the planting of Evergreens and wish to plant at this time, we are glad to furnish you with such information you may wish to help you get the

SPECIAL ROCK PLANT OFFER

12 PLANTS \$1.00

Two each of the following from 2¼ inch pots. All should bloom this year.

Arabis Alpine—White
Dianthus Deltoides—Carmine
Nepeta Mussina—Lavender

Saponaria Ocymoides—Rose
Veronica Rupestris Nana—Blue
Pyrethrum—Rose

All Above Varieties Our Best Rock Plants

DWARF, OR MUGHO PINE

HILL'S SILVER JUNIPER. *Juniperus scopulorum*—Beautiful silvery-blue color. Narrow, compact and symmetrical. It has one single stem, in contrast to some varieties of junipers with several stems. This makes it safe from heavy snows and wind. The inner foliage does not turn brown. New introduction by D. Hill. This is the seedling form containing both blue and green trees.

24 to 30 inches..... \$3.00
